LADIES AND GENTLEMEN,

THE CLASS OF 2000 !

WATCH THAT TABLE!

BROOKLYN LAW SCHOOL

JOAN G. WEXLER
Joseph Crea Dean
and Professor of Law

June 2000

Dear Members of the Class of 2000:

On behalf of the faculty, administration, and staff, I want to congratulate you on your graduation from Brooklyn Law School. We know that the demands of law school have been immense, but that is precisely why you can take immense pride in your achievement.

This is, of course, a challenging time for the profession of which you are now a member. Yet, the range of functions lawyers perform has never been greater, and you will find that because you are a lawyer your power to influence the course of private lives and public affairs has never been greater. I am certain that you will be able to face these challenges with strength and grace, and exercise your influence with care and responsibility because of the training that began here, at Brooklyn Law School.

Indeed, my sincerest wish is that a few years from now, when you reflect on your legal education, you will find that we did our best to instill in you a love of the law and a commitment to what is best about the profession.

Now you are members of the Brooklyn Law School alumni family -- a family spanning several generations whose members can be found in law firms, government agencies, public interest law offices, and management suites across the country and around the world. There will be many "family gatherings" in the years to come, including class reunions, symposia, and social events. We look forward to seeing you at all of them.

With all best wishes,

FROM THE DESK OF THE EDITOR

To My Fellow Graduates:

When the Yearbook was first handed to me, I had all of these wonderful thoughts. I was going to do the whole Millenium theme (that was quickly forgotten wasn't it?), place quotes throughout the book, and whatever else you could imagine. By the time the book started to get rolling I realized that this was not going to happen. I then just wanted to create something that everyone could read years from now and smile. Look at some of the pictures and remember the day, the class, the person, the professor or the event. To have you look back and say who the hell was that guy that used to dress in drag for the talent show every year (and yes, he was straight). I just hope this book will bring a smile to your face in the future.

I could write many different things in this space, pretend to be a philosopher and espouse my views on life to you, but I won't. There will be no quotes from me, just well wishes.

The truth of the matter is, who knows how many of us will still be in touch with each other years from now. But, it's a small world, we may work together, against each other, across from each other at the negotiating table (thanks Professor Schultz), or we may retain each other to handle our personal matters. For now, let's just sit back and enjoy ourselves.

Life is shorter than we think, enjoy it. What is the point of life if you are not happy. Stop and take a few days to enjoy yourself. Love life. Live life. Do what makes you happy. If anything, just stop and smile to yourself, people may think you are crazy, but it may just change your outlook on the day.

Good luck everyone. I wish you all the best.

PS Special thanks Dave, Dona & Jason
